**Attachments:** Subpart W Draft-EIA-BID - OMB Update (2) -sfm.docx

Reid,

Attached is the revised BID/EIA, with track-changes.

In a separate email I'll send you a clean version with all changes accepted, comments deleted, the TOC updated, etc.

I recommend that you look at the track-change version to see what changes I made, and if you agree with them, then use the clean version from this point onward. Even if you have some minor edits to the changes, it may be easier to do them on the clean version.

Let me know what you think.

Steve

**Subject:** BID Comments

Hi Steve,

I've reviewed the BID and I have just a few comments, included in the document. I accepted as many comments changes as possible, but some I didn't want to mess with, like the TOC changes. After these changes I think we're good to go. Thanks.

Reid
